SMSC Subject Statement

Subject: Science

Spiritual

- Science supports spiritual development by providing many opportunities for children to think and spend time reflecting on the amazing wonders that occur in our natural world.

Moral

- Science supports moral development by showing children that different opinions need to be respected and valued. There are many moral and ethical issues that we cover in science including discussions about environmental and human issues.

Social

- Science supports social development by exposing children to the power of collaborative working in the science community which has led to some amazing and life changing breakthroughs in medicine. When undertaking experiments and research children work collaboratively

Cultural

- Science supports cultural development by looking at how scientists from a range of cultures have had a significant impact globally. It also helps children to understand how important science is to the economy and culture of the UK.
