Geography Curriculum Journey

(Sustainability)

Reception

I can talk about how we look after our immediate environment —pick up litter, reuse, grow plants

Year 1

I explain how we can recycle in school and at home

Year 2

I know where we get our energy from—
Fossil and renewable (Science)

Year 3

I know that environmental change is posing a danger to the planet.
I **can explain** what global warming is and some of the things we can do to stop it—recycling, walking rather than going by car

Year 4

I know how international organisations are reversing deforestation
I know what happens to our rubbish—link with science

Year 5

I can explain that the land around a volcano is fertile.

Year 6

I can talk about renewable energy sources- wind farms, solar power etc.

Year 7

I will learn how a global city can be sustainable
I will learn how food and energy needs of the UK are met.

Whole School—Assemblies

We understand that it is our responsibility to look after our planet, e.g. use less plastic, recycle, pick up litter
